

## 1. Chemical Product and Company Identification

Commercial Name: **CREAM STONE**  
Company identification: **STONE CARE EUROPE srl**  
Via L. Spallanzani, 8 - 24061 Albano Sant'Alessandro (BG)  
Tel. 035.581.270 - Fax 035.42.39.780 - Email [info@stone-care-europe.com](mailto:info@stone-care-europe.com)  
Emergency number: Centro Antiveleni Ospedale Niguarda Tel. 02.66.10.10.29

## 2. Composition, Information on Ingredients

| Chemical Name    | CAS#       | Percent        | Risk phrases      |
|------------------|------------|----------------|-------------------|
| ALCANES, C11-C15 | 90622-58-5 | 5.0 ≤ C < 8.0  | R65-66 - Xn       |
| XYLENE           | 108-38-3   | 8.0 ≤ C < 12.0 | R10-20/21-38 - Xn |

Constituent component contributing to hazards: BENZENE < 1ppm; (CAS 71-43-4); F / R11 Carc.Cat. 1; R45-T

## 3. Hazards Identification

Hazard description: not applicable  
Information pertaining to particular dangers for man and environment: harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. Vapours may cause drowsiness and dizziness.

## 4. First Aid Measures

General information: immediately remove any clothing soiled by the product.  
Inhalation: supply fresh air; consult doctor in case of complaints.  
Skin contact: wash with water and soap.  
Eye contact: rinse opened eye for several minutes under running water. If symptoms persist consult a doctor.  
Swallowing: do not induce vomiting. Drink plenty of water, but never give anything to an unconscious person. Seek medical treatment.

## 5. Fire Fighting Measures

Extinguishing Media: foam, extinguishing powder, carbon dioxide, sand. Use fire fighting measures that suit the environment.  
For safety reasons unsuitable extinguishing agents: water with full jet.  
Hazardous Combustion Products: dangerous decomposition products see chapter 10: stability and reactivity  
Protective equipment: wear self-contained respiratory protective device.  
Special Information: dispose of fire debris and contaminated fire fighting water in accordance with official regulations. Collect contaminated fire fighting water separately. It must not enter the sewage system.

## 6. Accidental Release Measures

Remove all sources of ignition. Place in appropriate container for disposal.

## 7. Handling and Storage

Handling: Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.  
Storage: Do not store near heat or open flame. Do not reuse towelette. For canisters: When not in use, keep center cap of lid closed to prevent moisture loss.  
Handling: use only in well ventilated areas. Keep receptacles tightly sealed. Use solvent-proof equipment. Avoid inhalation of vapours.  
Explosions and fires: keep ignition sources away - Do not smoke. Protect against electrostatic charges.  
Storage: store receptacles tightly closed at a cool and dry place with sufficient ventilation. Prevent any seepage into the ground.  
Store away from foodstuffs. Store away from feed.  
Further information about storage conditions: None.

## 8. Exposure Controls, Personal Protection

Eye Protection: do not get in eyes. Skin Protection: wash hands thoroughly after handling.  
Respiratory Protection: use appropriate respiratory protection if exposure limit is exceeded.

## 9. Physical and Chemical Properties

|                          |  |
|--------------------------|--|
| ODOR: mint               | PHYSICAL STATE: pasty                      |
| APPEARANCE: whitish      | SPECIFIC GRAVITY/DENSITY: 0.845 g/l        |
| SOLUBILITY: emulsifiable | pH: (at 20 °C) ~8.0-10.5 in delivery state |
| DRY RESIDUE: 15,50 %     | FLASH POINT: N.A.                          |

Auto igniting: product is not self igniting.  
Danger of explosion: product is not explosive. However, formation of explosive air/vapour mixtures are possible.

## 10. Stability and Reactivity

Thermal decomposition / conditions to be avoided: no decomposition if used and stored according to specifications.

Dangerous reactions: no dangerous reactions known.

Dangerous products of decomposition: in the case of fire or at high temperatures the formation of the following decomposition products is

possible: Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

Toxicological Data: In case of medical emergency, contact your local poison control center. Carcinogenicity: None Available

Acute toxicity: LD/LC50 values that are relevant for classification: no toxicity data are available for the product itself.

Primary irritant effect: Skin - No irritant effect. Eye - Light irritation possible.

Sensitization: No sensitizing effects known.

Additional toxicological information: when used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

## 12. Ecological Information

Acquatic toxicity: presently there are no ecotoxicological values available.

General notes: danger to drinking water if even small quantities leak into the ground.

## 13. Disposal Considerations

Follow container label directions carefully. Do not reuse empty container. Put empty travel pack, packet in trash collection.

## 14. Transport Information

RID/ADR - IMO/IMDG - ICAO/IATA

No hazardous material according to the regulations.

## 15. Regulatory Information

Markings according to EU guidelines: the product has been classified and marked in accordance with directives on hazardous materials.

Risk phrases:

R20/21: irritating to eyes and skin – R66: repeated exposure may cause skin dryness or cracking.

Safety phrases: keep out of the reach of children. Keep away from food, drink and animal feedingstuffs. Do not breathe fumes.

Avoid contact with skin. If swallowed, seek medical advice immediately and show this container or label.

## 16. Additional Information

MSDS Creation Date: January 2007

Revision # Date: march 2007
